

## Environmental Policy

Since 2007, the company **Câblages électriques Tunisie (C.E.T.)** has not ceased to give the most and to develop in the field of Manufacture of wiring harnesses for the automotive sector, takes into account the studies, the definition of the means of production and control, the management of supplies, the storage and the delivery of finished products according to the applicable requirements.

Câblages électriques Tunisie (C.E.T.) recognises that the long-term health of its business is directly linked to the health of the planet and the local communities. Therefore, this Policy is communicated to all persons working on behalf of **Câblages électriques Tunisie (C.E.T.)** and will be available to the public and interested parties.

The management of **Câblages électriques Tunisie (C.E.T.)** at its highest level is committed to develop within the defined scope of its EMS system and according to the nature, dimension and environmental impacts of its activities, products and services

In the spirit of respecting these challenges and complying with the regulations, **Câblages électriques Tunisie (C.E.T.)** favours the following initiatives:

- **Commitment to a process of continuous improvement in environmental management,**
- **Assessment of the environmental impacts of products, operations and facilities, and a commitment to minimise these impacts,**
- **Improving the environmental performance of employees through awareness promotions, detailed policies and procedures,**
- **Efficient use of natural resources to minimise waste generation,**
- **Measuring environmental performance and reviewing objectives and targets, monitoring progress,**
- **Integration of environmental responsibilities and considerations into day-to-day operations and business decision-making processes,**
- **Preparing for effective emergency response to minimise any environmental impact that may result from day-to-day operations,**
- **Promotion of effective environmental management by our suppliers and subcontractors,**
- **Compliance with all applicable environmental laws and regulations,**

Upon review of the environmental objectives and targets, the strategic directions will be concretised from the Environmental Policy and will be reviewed and updated at the management review or exceptionally upon request from internal and external needs.

We are constantly looking for environmental solutions to reduce our energy footprint and help preserve the environment.

***Managing Director  
Roberto Asaro***
